

## Projects Approved Under Incremental Tree Planting Program Round 1- 2024

Project Number: 1210 Incremental plant Boundary Waters Forest	
<i>Applicant:</i>	Boundary Waters Forest Management Corp.
<i>Forest:</i>	Boundary Waters Forest
<i>Approved Funding:</i>	\$409,964.00
<i>Description:</i>	This project will include mechanical site preparation followed by tree planting of forestry access roads. Target species will be jack pine and black spruce. The project plans to plant 100 km of former road, this is estimated as 50 ha. A total of 200,000 trees are planned for planting.

Project Number: 1211 Wildfire blowdown rehab	
<i>Applicant:</i>	Red Lake Forest Management Co. Ltd.
<i>Forest:</i>	Red Lake Forest
<i>Approved Funding:</i>	\$40,294.78
<i>Description:</i>	This project includes site preparation of area that has been impacted by blowdown and wildfire on the Red Lake Forest. This project will enhance the renewal in this area in the aftermath of the natural disturbance. Site preparation will be followed by planting of black and white spruce; and jack and red pine in this productive area of the forest.

Project Number: 1212 Constellation ITP Project	
<i>Applicant:</i>	Resolute FP Canada Inc.
<i>Forest:</i>	Caribou Forest
<i>Approved Funding:</i>	\$150,140.84
<i>Description:</i>	This project will include mechanical site preparation followed by tree planting of forestry access roads. Target species will be jack pine and black spruce. The project plans to plant 41.3 km of former road, this is estimated as 20.6 ha. A total of 82,600 trees are planned for planting.

## Projects Approved Under Incremental Tree Planting Program Round 2- 2024

Project Number: 1213: Renewal Post 2019 Wildfire Forest Rehabilitation	
<i>Applicant:</i>	Dryden Fibre Canada
<i>Forest:</i>	Trout Lake Forest
<i>Approved Funding:</i>	\$172,415.40
<i>Description:</i>	Renewal of area damaged by 2019 wildfire is the primary objective of this project. Competing vegetation is challenging natural growth. Site preparation required to remove competition and immediately establish seedlings in the spring following the site preparation.

Project Number: 1214: Renewal Post 2023 Wildfire Forest Rehabilitation	
<i>Applicant:</i>	Dryden Fibre Canada
<i>Forest:</i>	Trout Lake Forest
<i>Approved Funding:</i>	\$335,676.67
<i>Description:</i>	Renewal of area damaged by 2023 wildfire is the primary objective of this project. Area harvested over a 5-20 year period was completely destroyed by the wildfire. Planting of trees will return this area to productive forest in the Spring-Summer of 2025.

Project Number: 1215: Spanish Forest Mallard/Plantes - 2025 ITP	
<i>Applicant:</i>	Interfor
<i>Forest:</i>	Spanish Forest
<i>Approved Funding:</i>	\$163,237.61
<i>Description:</i>	The Spanish Forest has a long history of intensive silviculture treatments on highly productive sites. This project proposes to establish approximately 220 ha of plantations in forested areas that were recently destroyed by the SUD017 and CHA003 forest fires. This project will involve various silviculture treatments to establish and ensure survival of the planted seedlings. The silviculture treatments will include: tree growing/transport, planting and release tending. Jack pine will be established on the proposed treatment sites.
