

# Enhanced Forest Resources Inventory (eFRI) Knowledge Transfer and Tool Development (KTDD) Round 2 WebEx technology transfer presentations

Date	Time	Speaker	Topic
11-Feb-2021	12:00 -12:30 pm	Craig Robinson - Forsite Consultants Ltd.	Next Generation eFRI Ground Data Collection App
	12:30 - 1:00 pm	Adam Anderson, President & CEO Resource Innovations Inc.	Predicting Seasonal Operability for Forest Operations in Ontario
18-Feb-2021	12:00 -12:30 pm	Dr. Joanne C. White - Research Scientist, Canadian Forest Service Murray Woods, Retired, MNRF	Exploring the Innovation Potential of Single Photon LiDAR for Ontario's eFRI
25-Feb-2021	12:30 -1:00 pm	Keith Hautala - Program Coordinator - Forestry Technician Program & Professor in Environmental Technician Program, Confederation College	A Review, Enhancement, and Accuracy Assessment of Wetland Features within the eFRI
	12:00 -12:30 pm	Phil Green - CEO, First Resource Management Group Inc.	Validation of eFRI and SkyForest
4-Mar-2021	12:00 - 1:00 pm	Maurice LeBlanc - Head of Forestry Business Development, Global Surface Development	Determining Species Identification and Quantifying Regenerating Areas from Satellite-Derived Analytics
11-Mar-2021	12:00 -12:30 pm	Alex Bilyk - Overstory Consultants	Enhancing Forest Inventory LiDAR
	12:30 - 1:00 pm	Dr. Rob Mackereth - Research Scientist, Ontario Ministry of Natural Resources and Forestry	Post-fire Residual Forest Patterns in Boreal Forest Lake Watersheds
18-Mar-2021	12:00 - 1:00 pm	Dr. Nicholas Coops - Head, Dept. Forest Resources Management, University of British Columbia and Canada Research Chair (CRC) in Remote Sensing	Sampling and Generation of Enhanced Forest Inventory (EFI) attributes from SPL for the eFRI
		Martin Queinnec - PhD Candidate, Department of Forest Resources Management, University of British Columbia	
		Grant McCartney, Forest Information Systems Coordinator, Rayonier Advanced Materials (RYAM) Forest Management	
25-Mar-2021	12:00 -12:30 pm	Dr. Kevin Lim - LIM Geomatics	FRIHub: A Discovery Portal for FRI Data and Products
	12:30 - 1:00 pm	Dr. Kevin Lim - LIM Geomatics	ITESTA - Individual Tree Extraction and Species Typing Analysis
