Forest Management Plan

Determination of Sustainability - predictions

Current

- Challenges incorporating shelterwood and selection into planning models
- Yield curves and succession are separate

Future

- Spatial planning
- Climate change
- Delisting SFMM
- Products including piece size, carbon and biomass

FORESTRY
FUTURES

ONTARIO

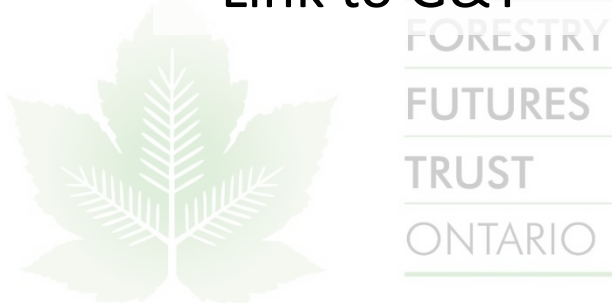

Determination of Sustainability - observations

Current

- Single FTG Survey
- Silvicultural Enhancement Initiative (SEI)
- Two stage survey
 - Establishment survey – legal requirement
 - Performance survey
- Regeneration standards?

Future

- Link to G&Y

Other planning links to G&Y

Current

- Silviculture guides (BBN)
- Stand & site guide
- Landscape guide
- Ecological land classification (FRI)

Future

- Silviculture guides – refined using quantitative data
